Wrangling Health Care Costs

Wyoming Tour

Building on Market-based Solutions and Strengthening Current Insurance Programs

1. **Eliminates** unfair tax treatment of health insurance for all Americans, thereby expanding choices, coverage, and control over your health care
2. **Increases** affordable options for working families to purchase health insurance through a standard tax deduction
3. **Ensures** affordable health insurance to low-income individuals through a refundable, advanceable, assignable tax-based subsidy
4. **Allows** insurers to create new small business health plans that bring together folks from multiple states, which will expand benefits and drive down insurance costs for all
5. **Blends** the individual and group market to extend important HIPAA portability protections to the individual market so that insurance security can better move with you from job to job

United States Senator Mike Enzi

10 Steps to Transform Health Care S. 1783

*A comprehensive solution
to expand access to
affordable health care
for all Americans*

6. **Emphasizes** preventive benefits and helps individuals with chronic diseases so America **will** finally have health care and not sick care
7. **Gives** the choice to convert the value of Medicaid and SCHIP program benefits into private health insurance, putting you in control of your health care, not the Federal government
8. **Saves** lives and money by better coordinating health information technology to improve health care delivery
9. **Increases** access to primary care in rural and frontier areas by helping future providers and nurses pay for their education, and gives seniors more options to receive care in their homes and communities
10. **Decreases** the sky-rocketing cost of health care by restoring reliability in our medical justice system through State-based solutions
